Full Stack Developer

Description

NOTE: ON-SITE ONLY. THIS IS NOT A REMOTE JOB.

We're Hiring On-Site Full Stack Developer!

Do you have what it takes to be a superhero in the world of software development? Are you a full stack wizard with a passion for creating and managing innovative software and mobile apps? Then we want YOU to join our team as our Full Stack Superhero!

Responsibilities

-Develop and maintain software products and mobile apps using a variety of programming languages and frameworks, including Laravel, PHP, Code Ignitor, NodeJS, Flutter, and more.

- Collaborate with our product team to design and implement new features, and troubleshoot and fix any bugs or issues that arise.

- Build and manage API connections and integrate AI tools to enhance the functionality of our products.

- Continuously optimize and improve the performance, security, and scalability of our software and apps.

- Stay up-to-date with the latest trends and technologies in full stack development, and continuously find new ways to innovate and improve our products.
